

Instructions for watching Worship Services

Watching Livestream

On Sunday mornings around five of the hour go to our YouTube channel by clicking any of the livestream links on our Sunday Morning Worship page, or link in your email. You'll see our Worship Service playing "Live". If you don't see it, you may have tried a little too early. Refresh your browser and try again.*

Chat with Others

Here are the instructions to comment on YouTube Livestream chats:

1. Setup a YouTube Account and Login with your username/email.
2. Join the Livestream
3. To post in live chat, click into where it says "Live Chat" and begin typing.
Then, click the send icon.

Watching Recorded

After the service ends, the content is available for viewing at any time*. Go to our YouTube channel, click on "Live" video page, and the most recent service will be first. If the video isn't found, click "Videos" and in some cases you'll find the service there.

*On occasion videos will not upload *LIVE* so you may not find what you're looking for immediately. Rest assured we are working on it!
